RE: MEASURING DEVICE NOTICE / SEAA 1142

TO: Al Hendricks,

On May 18th 2006, the State Engineer initiated the referenced agency action and sent you a notice of the statutory requirement to install and maintain a functional and accurate measuring device. You responded in a letter on June 7th 2006 that the subject meter was functioning.

It has subsequently been reported to the State Engineer and verified by his representatives on June 15th 2006, that the measuring device is functioning as required and the subject agency action can be formally concluded. Your efforts to comply with the order are commended and appreciated.

Please be aware that maintenance of the diversion and measurement device remains your responsibility. You should consult regularly with Distribution Commissioner, Becky Taft to assure that your diversion and measuring device is operating to her satisfaction.

Sincerely,

Mike Silva
Distribution Engineer
